

The Port of Los Angeles

# Foreign Trade-Zone 202

Benefits of Local Community & Business

# BENEFITS

The FTZ program allows U.S.-based companies to defer, reduce or even eliminate Customs duties on products admitted to the zone. Following are some benefits that FTZ Zone user may be eligible for.

## **Deferral of Duties**

Customs duties are paid only when merchandise is shipped into U.S. Customs and Border Protection territory. Inventory held in an FTZ is exempt from duty payment until shipped. This can often provide companies with significant operational cash flow relief.

## **Inverted Tariff**

In a FTZ, users are allowed to elect a zone status on merchandise admitted to the zone. Importer may pay the duty rate applicable to either the parts or the finished product, whichever is lower.

Elimination of Duties: No duties are paid on merchandise exported from a FTZ, on merchandise which is defective, damaged or obsolete, or on waste or scrap.

## **Elimination of Drawback**

The duties paid on exported merchandise may be refunded through a process called drawback. The drawback law has become complex and expensive to administer. Through the use of a FTZ, the need for drawback process and cost may be eliminated.

## **Quotas**

U.S. quota restrictions do not apply to merchandise admitted to zones. Most merchandise subject to quota, may be held in FTZ, even if it is subject to U.S. quota restrictions. When the quota opens, the merchandise may be immediately shipped into U.S. Customs and Border Protection territory.

# OVERVIEW

## The Foreign-Trade Zone (FTZ) Program

Federal legislation created the Foreign-Trade Zones (FTZ) Act of 1934 to facilitate international trade and increase the global competitiveness of U.S.-based companies. FTZs are designated sites within the United States where foreign and domestic merchandise is considered to be outside the U.S. Customs territory. The program is designed to lower the cost of doing business and stimulate economic growth and development in the U.S by allowing companies to defer, reduce or eliminate U.S. Customs duties. Certain types of merchandise can be imported into a Zone without going through formal Customs entry procedures or paying import duties until the products are transferred from the FTZ sites for U.S. consumption. If merchandise never enters U.S. commerce or is re-export to other countries, then no duties are paid on those items.

## FTZ 202 – The Port Of Los Angeles

Foreign-Trade Zone 202 was established in 1994 and comprises approximately 2,700 acres of Port property plus General Purpose sites in Los Angeles and San Bernardino Counties totaling more than 4,000 acres. In addition, FTZ 202 comprises Subzones in the Southern California cities of El Segundo, Northridge, Wilmington and Carson.

## Following Activities are Permitted in a Foreign-Trade Zone:

*Assembly\**  
*Testing*  
*Sampling*  
*Relabeling*

*Manufacturing\**

**THE PORT  
OF LOS ANGELES**

The Port of Los Angeles, also known as America's Port, Southern California's gateway to international commerce, is located in San Pedro Bay, just 20 miles south of downtown Los Angeles. The nation's number one port not only sustains its competitive edge with record-setting cargo operations, but also for its groundbreaking environmental initiatives, progressive security measures and diverse recreational and educational facilities.

The Port of Los Angeles is a department of the City of Los Angeles and is often referred to as the Los Angeles Harbor Department. The Port is operated and managed under a State Tidelands Trust that grants local municipalities jurisdiction over ports and stipulates that activities must be related to commerce, navigation and fisheries. A five-member Board of Harbor Commissioners are appointed by the Mayor and confirmed by the Los Angeles City Council to provide direction and create policy for the Port.

As a proprietary and self-supporting department, the Port is not supported by taxes. Instead, revenue is derived from fees for shipping services such as dockage, wharfage, pilotage, storage, property rentals, royalties and other Port services. Considered a landlord port, the Port of Los Angeles leases its property to tenants who then, in turn, operate their own facilities.

The Port encompasses 7500 acres, 43 miles of waterfront and features 27 cargo terminals, including dry and liquid bulk, container, breakbulk, automobile and omni facilities. The Port is also home to the nation's most secure cruise passenger complex, the World Cruise Center.
